Guess Who I Am?

Match the dinosaur to one of their special features by drawing a line from the fact, to the image, to the dinosaur name.

Biggest Belly

HINT: My stomach was big enough to stack two orcas. I needed this big stomach to store the 1,000 pounds of plants I ate each day.

Tyrannosaurus

Strongest bite

HINT: My bite was twice as strong as a crocodile's and 12 times as powerful as a lion's. I gulped down chunks of *Triceratops*.

Kentrosaurus

Spikiest tail

HINT: I was covered in spikes from head to tail. My tail spikes were sharp enough to pierce through armor.

Limusaurus

Fewest Teeth

HINT: I was born with a full mouth of sharp teeth. But I lost them as a teenager and grew a beak. So long, chompers!

Argentinosaurus
